

CREATING IBM CLOUD SERVICE

Date	03 NOVEMBER 2022
Team ID	PNT2022TMID52320
Project Name	SMART WASTE MANAGEMENT FOR METROPOLITAN CITIES

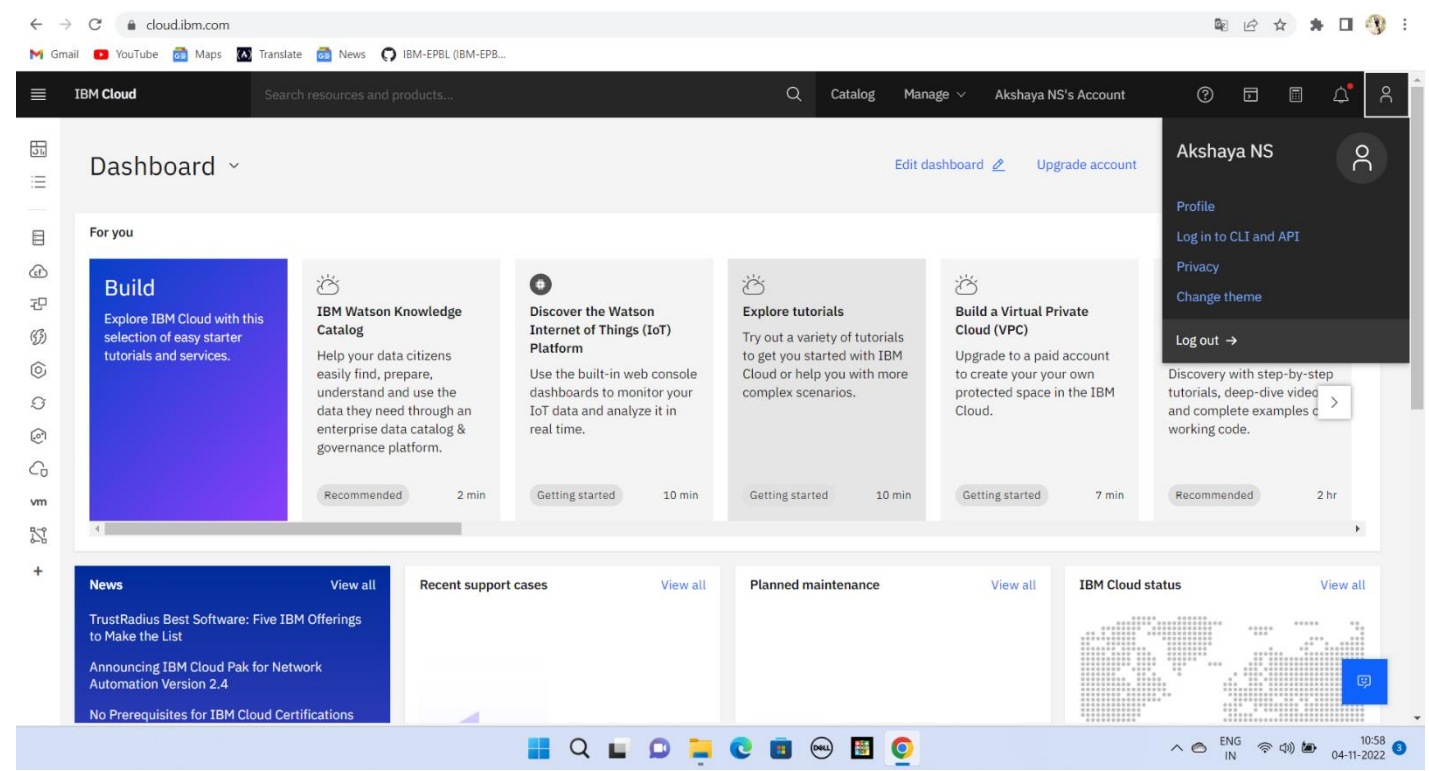

TEAM LEADER: SNEKA K

The screenshot shows the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Sneka K's Account). Below the navigation bar, the main content area is titled "Dashboard" and features a "For you" section with five recommended actions: "Build" (Explore IBM Cloud with this selection of easy starter tutorials and services), "Set up your IBM Cloud account" (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), "Build a web app with Watson Speech to Text" (Deploy a conversational interface compatible with any application, device, or channel), "Create an OpenShift cluster" (Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud), and "Use Watson Studio" (Watson Studio provides a suite of tools and a collaborative environment for data scientists, developers and domain experts). Each action card includes a "Getting started" button and a time estimate. On the right side, there's a user profile menu for "Sneka K" with options for Profile, Log in to CLI and API, Privacy, Change theme, and Log out. At the bottom, there's a "News" section with a link to "TrustRadius Best Software: Five IBM Offerings to Make the List" and a link to "Announcing IBM Cloud Pak for Network". Other sections include "Recent support cases", "Planned maintenance", and "IBM Cloud status".
